

DIGITAL ENGINEERING & DESIGN SUMMIT

REDUCING PROJECT DOWN TIME, UNPLANNED
LOSSES AND TACKLING PROJECTS COMPLEXITY
WITH DIGITAL ENGINEERING

Main Summit:
15 - 16 October 2019

Post-Summit Site Tour:
17 October 2019

Venue:
Radisson Blu Plaza
Hotel Sydney

KEY THEMES

- Future Of Construction With Digital Engineering: **Laing O'Rourke**
- Digital Engineering To Transform Infrastructure Design: **Transport For NSW**
- Optimizing Engineering Design with Digital Engineering
- Using **Drones For Surveying** And Data Capture For Engineering Design
- **International Best Practices** in Digital Delivery of Major Infrastructure Projects
- **Generative Designs** In Transforming Infrastructure and Building Designs
- **Designing Modern Rails** with Digital Engineering
- Tackling Major Infrastructure Projects with Digital Engineering
- **Engineering & Design with Virtual Reality**
- **Digital Thread and Collaboration**
- **Digital Twins** and Asset Virtualization
- Asset Intelligence and Maintenance with Digital Engineering
- **Improving Sustainability** with Digital Engineering
- Digital Engineering in **Manufacturing**
- Successful Case Studies from **Sydney Metro, Downer, Fulton Hogan, Aurecon and More**

KEY SPEAKERS INCLUDE

Welcome to the Digital Engineering & Design Summit

*Reducing Project Down Time, Unplanned Losses And Tackling
Projects Complexity With Digital Engineering*

15 - 17 OCTOBER 2019 | RADISSON BLU PLAZA HOTEL SYDNEY

5 REVOLUTIONARY TAKEAWAYS FROM ATTENDING THE SUMMIT

1. **Join** an exclusive gathering of thought and business leaders for meaningful exchanges around digital engineering and its applications in various fields
2. **Acquire** actionable insights, proven solutions and effective strategies to accelerate your organization's journey to digital engineering
3. **Discover** new ways for various internal stakeholders to collaborate in the pursuit of a digital engineering-empowered enterprise
4. **Forge** valuable partnerships with some of the most innovative minds at the forefront of digital engineering and immersive technology
5. **Learn** more about how organizations in various fields and industries have successfully used digital

SUMMIT AT A GLANCE

DAY 1: TUESDAY, 15 OCTOBER 2019

- Keynote: The Future Of Construction With Digital Engineering
- Downer Case Study: How Digital Engineering Is Leveraged Across Entire Project Lifecycle At Downer From Engineering Design To Asset Virtualization, Construction And Maintenance
- How Fulton Hogan Is Utilising Digital Engineering And Virtual 3D Modelling To Improve Construction Delivery And Outcomes
- How Digital Engineering Is Now Used To Design And Manufacture Complex And Sustainable Products

DAY 2: WEDNESDAY, 16 OCTOBER 2019

- Keynote: Strategic Digital Engineering To Transform Infrastructure
- How Digital Engineering's Iterative Design Process In Virtual Environment Helps To Identify The Most Efficient Blend Of Cost And Asset Maintenance Strategy
- Improving Sustainability And Reducing Wastes In Construction With Digital Engineering
- Victorian Digital Asset Strategy (VDAS) - Victoria's Digital Engineering Approach For Infrastructure

POST-SUMMIT SITE TOURS: THURSDAY, 17 OCTOBER 2019

- Site Tour 1: Digital Engineering Lab Site Tour
- Site Tour 2: Digital Innovation & BIM Lab Site Tour

5 REASONS TO JOIN US AT THE INAUGURAL DIGITAL ENGINEERING & DESIGN SUMMIT

01

Compelling case studies shared by prominent speakers who have played imperative roles in transforming design, manufacturing, construction, asset management and much more with digital engineering

02

Proven best practices and practical insights on what organizations need to cost-effectively implement digital engineering and immersive technology

03

Interactive, outcome-focused roundtable discussions and panels aimed at answering pressing questions and assisting delegates in mapping out successful digital engineering initiatives

04

An exclusive platform for industry experts to address major challenges to digital engineering rollouts, and share solutions

03

A valuable opportunity to engage and forge partnerships with thought and business leaders

POST SUMMIT SITE TOURS

17 OCTOBER 2019 | RADISSON BLU PLAZA HOTEL SYDNEY

Site Tour 1: Laing O'Rourke Innovation Lab

Engineering has gone digital. Powered by 3D modelling, virtual reality, real-time data mapping and more, infrastructure designers and builders are reaping huge benefits in efficiency, quality and sustainability. Among these is engineering & construction giant Laing O'Rourke, whose highly developed digital engineering capabilities have delivered one of the UK's most technically complex buildings, the Francis Crick Institute, and the innovative multi-modal Heathrow Terminal 5, among others.

Delve into how they did it in this exclusive tour of Laing O'Rourke's Innovation Lab, described by the Australian Financial Review as "resembling something like the futuristic lab of James Bond's eccentric Q character...a playroom of robotic arms, 3D printers, cyborg-like exoskeletons and digital screens". You will learn more about the technologies and methodologies leading the engineering & construction of tomorrow.

Site Tour 2: VR Simulator for Mining (UNSW Site Tour)

The messy burden of multi-disciplinary industrial collaboration is set to become a thing of the past, thanks to digital engineering techniques and the power of immersive technology. From generative design to rapid prototyping to data visualization, digital asset management and much more, digital engineering enables experts and stakeholders from across the project spectrum to work more efficiently, on the same page, all the way from concept to delivery.

Experience one example of this in action at the University of New South Wales's School of Mining Engineering, where you will get an exclusive look at ViMINE - a virtual reality tool used to create authentic 4D simulations of real-life mining operations for training purposes. You will see how VR enables the confluence of the technical and the environmental for effective collaboration, and how this can be adapted to drive success in other engineering disciplines.

Platinum Sponsor

We are a customer centric company with 30 years of history & experience serving the Architecture, Engineering, Construction, and Manufacturing industries. We specialise in providing software and hardware technology, training, and consulting to these industries. We are one of the largest Autodesk Platinum Solution Partners in Australia. The Platinum Tier is the highest partner status and is based on the satisfaction ratings of our customers experience with us. We are immensely proud to have been the first Australian reseller to achieve this status.

Trust, Friendliness and Value are the core of all our solutions and underpins our customer-centric approach. We believe that our customers' success is as important as our own and therefore consistently develop innovative solutions to support our client's interests.

Our mission is to provide hands-on industry experience as well as the latest tools, computer infrastructure and knowledge to help our customers achieve success in any project undertaken.

For more information, please visit <https://www.cadgroup.com.au/>

Capitalize on this Conference

Looking for the ideal platform to elevate your professional status and strike key business partnerships?

Leverage on our limited sponsorship packages to strengthen and confirm your market position through consistent and continual branding awareness and take advantage of the plethora of opportunities with high level decision makers.

Your Partnership with us will provide you with:

- **Unparalleled industry exposure**
- **Leads generation and set-up of meetings with key decision makers**
- **Extraordinary brand visibility, increasing brand awareness and preference**
- **Long-term business partnerships with leading government agencies, customers and suppliers**

Please contact **Emma Joy** at **+61 4 3103 1748** or email emma@claridenglobal.org to discuss potential sponsorship opportunities or to custom make your own package.

Benefits as Media Partner or Supporting Organization at the *Digital Engineering & Design Summit*

- **Enhance your corporate profile and visibility within your industry** - Your company's logo will be emblazoned on our brochures and distributed to decision makers across Australasia
- **Affiliation with an internationally recognized commercial event organizer**

Clariden Global events are widely known and trusted throughout the world for providing best value to senior industry executives. Through partnering with selected media and supporting organizations, we are capable of delivering the highest calibre of expert knowledge and key industry insights to the target market.

If you meet the criteria mentioned above and would like to explore the opportunity to partner with us for the *Digital Engineering & Design Summit*, please contact **Karen Williams** at **+61 3 9909 7310** or email karen.williams@claridenglobal.org.
